

## **E-SToPP's Transformative Literacy Enrichment Program Join Our Team Application**

### **E-SToPP's Mission**

Eradicating the School-to-Prison Pipeline Foundation, Inc. (E-SToPP) is a 501(c)(3) non-profit corporation created and existing under the Laws of the State of Florida dedicated to eradicating the school to prison pipeline throughout Miami-Dade's most economically marginalized communities by creating a grassroots network of transformative racially equitable schools and educational opportunities for underserved and unserved youth, by laying the groundwork for a seamless sustainable reentry navigation route for students who have been isolated through exclusionary school discipline, referral, suspension, expulsion, and/or incarceration.

### **E-SToPP's Vision**

Using E-SToPP's Transformative Research, Education, and Praxis framework, E-SToPP offers a paradigm shift for naming, challenging, navigating, healing from, resisting, changing, and transforming policies, practices, definitions, and assumptions that prevail as racial inequity in all its intersections and manifestations in schools in a broken system, pushing our Black and Brown children into the school-to prison pipeline; thereby, E-SToPP envisions grassroots development of alternatives to the school-to-prison pipeline as antidotes to oppressive models of education.

### **E-SToPP's Principles**

E-SToPP Principles outline our dedication to create a grassroots network of racially equitable schools and educational opportunities with a kind, loving, and welcoming climate for learning at each touchpoint for youth who have been isolated through exclusionary school discipline, referral, suspension, expulsion, and/or incarceration. E-SToPP's Principles, grounded in a transformative mindset, support what we offer, propose, and seek to collaborate on in any setting with any group of participants:

- E-SToPP's Transformative Research, Education, and Praxis
- E-SToPP's Education Debt Reparations
- E-SToPP's Paradigm Shift
- E-SToPP's Elimination of Exclusionary School Discipline
- E-SToPP's Exclusionary School Discipline First Responders
- E-SToPP's Setting Up a Kind, Loving, Welcoming Climate for Learning
- E-SToPP's Transformative Literacy Pedagogy
  - E-SToPP's Transformative Literacy Enrichment Program

## **E-STOPP's Transformative Literacy Enrichment Program**

E-STOPP's Transformative Literacy Enrichment Program is dedicated to inspiring the love of books and reading, and the research and discussion of books and reading, through E-STOPP's transformative literacy enrichment classes and courses, which integrate free browsing and lending libraries, free pop-up libraries, schooling, education, and networking opportunities.

If you are interested in volunteering with E-STOPP's Transformative Literacy Enrichment Program as a community member, professional, university student, university course credit intern, university practicum course student, or in any other capacity, please submit this application form along with your resume/CV and purpose statement to [debrapane@gmail.com](mailto:debrapane@gmail.com).
